

COMPANY FACT SHEET

OVERVIEW: The vision of a doctor of veterinary medicine and a doctor of physical therapy, Los Angeles-based California Animal Rehabilitation is the first pet rehabilitation center of its kind in Southern California. The facility offers comprehensive rehabilitation services for dogs and cats needing post-operative recovery programs or non-surgical options, assistance with neurological disorders, weight management, and general pain management associated with disorders from aging or from injuries.

Pet owner exit surveys taken after an initial 8-week treatment program have reported 99% satisfaction with the rehabilitation center's services and an average of 75% improvement with their pet's physical problems.
